Star Enterprise, Swanton, New Westminster

THE ELECTRO-SPIRIT TAX.

The Collector of Customs opposed the abolition of the duty of 50 cents a gallon imposed upon spirits for the purpose of creating a revenue for the maintenance of the telegraphic system of the Mainland, upon the ground of revenue. He thought that by leaving it on till Union takes place we should get more revenue from the Customs before handing that source over to the Federal Government. With the utmost respect for the opinion of the Collector of Customs upon all matters in his own Department, we feel disposed to take a different view. The tendency of leaving that tax in force until the 1st of July will be to encourage spirit importers to leave larger stocks in bond with a view to getting clear of the 50 cents a gallon, and thus the Colony will lose rather than gain, for all Customs revenue collected after the 1st of July will go into the Federal Treasury.

EDUCATION.—It will be observed that the Central School will be opened on the 1st prox. by Mr Jessup, who, to his credit be it said, has resolved to carry it on wholly irrespective of Governments and Educational Boards. Mr Jessup's abilities as a teacher are already too well known in this community to need a word of commendation from us. We understand he is the only teacher in the colony holding a first class certificate from the Normal School of Canada, from which we believe there exists no more efficient training institution for school teachers. Mr Jessup has fixed the tuition fees very low, and has made arrangements which will, we have no doubt, enable him to do full justice to pupils. His enterprise in thus coming forward to supply an important want deserves encouragement.

SUCCESS.—Some one has remarked that "there is nothing so successful as success." Mr William Jones, who has just sold his steam sash and door factory to an enterprising firm in this city, and who is now clearing out his stock at the most tempting bargains, is about to go to England; not to remain there, however, but to return with the means for embarking in a new and enlarged enterprise. Arriving here in early times Mr Jones has, by dint of indomitable perseverance and industry, accumulated considerable wealth, and we are pleased to know that he has sufficient confidence in the future of this place to lay his plans for more extended operations.

Among the passengers who came over by the Isabel the other evening was Captain Henry Gray, formerly of Hope, Fraser river. In 1861 Mr Gray was pilot of the steamer Cariboo when that vessel was blown up off the mouth of this harbor. Capt Jamieson, who stood by Gray's side at the wheel, was killed—the latter escaping with a few slight contusions. After the disaster Capt Gray went to Oregon, the present being his first visit to Victoria since the melancholy occurrence.

ROAD STEAMERS.—The Mainland Guardian has a leading article upon the subject of the proposed introduction into this colony of Thomson's Patent Road Steamers. Our contemporary very properly regards such an improvement in the carrying trade of the interior as being of the utmost importance and strongly advocates legislative encouragement for that purpose.

THOSE CROSSINGS.—The disgraceful condition into which several of the most used street crossings have fallen induces us to make another appeal to the civic authorities. We seriously hope this subject will receive immediate attention. There is perhaps no other way in which the Council could give so much comfort and satisfaction for so little money as by having a few new crossings laid down.

LILLOOET-CLINTON ITEMS.—A foot of snow at Lillooet and Lytton at last arrives. ... Tall Mexican pecker, named California, died of unknown complaint at Lillooet. ... Magistrate started for Clinton to try a case; sleigh broke down and he was detained one day; meantime the parties to the suit settled their difference and went home; magistrate not wanted.

DISSATISFACTION.—We learn that a great deal of dissatisfaction exists at Nanaimo and along the coast on account of the attempt made in the Legislative Council by the member for Nanaimo, aided by the member for Victoria District, to have the steamer Sir James Douglas withdrawn from the service.

MILD WINTER.—The winter has been an unusually mild one so far at least, along the East coast of this island. Considerable snow fell at Comox last month, but it has mostly disappeared. At Nanaimo and lower down there has, as yet, been scarcely any winter weather at all.

THE SOUND MAIL SUBSIDY.—Capt Starr had a satisfactory interview with the Governor yesterday respecting the Puget Sound and weekly mail service.

POLICE COURT.—Mr A Theakston, for several years Clerk of the Police Court, has resigned and will be succeeded by Capt H B Lord. Mr Theakston will proceed to Omakau early in the Spring.

REHEARSAL.—The amateur and other performers who have volunteered for the Costello benefit are rehearsing their parts.

THE NEXT STEAMER.—The Pacific will sail from San Francisco for Victoria on the 4th or 6th of February.

FIRE'S COFFER.—Superior to any other and manufactured on the Coast, may be obtained of all respectable dealers throughout the Col. iv.

ACCIDENT.—Mr Benjamin Robertson while riding a horse along the Esquimalt road on Thursday, was thrown off near Everett's corner and so seriously injured about the head that he lay for some time insensible. He was assisted to his house by Mr James Orr, and is now confined to his bed.

ADDELPHI SALOON.—Mr P Murphy, one of the most accomplished saloonkeepers in the city, has purchased the famous Adelphi Saloon and will be found behind that bar in the future. Mr Murphy pledges himself to maintain the Saloon at its former standard.

OLYMPIA WANTS A SEMINARY.—The Tribune says that next to a railway one of the most pressing wants of Olympia is a seminary in which may be taught the higher branches of a liberal education, and it strongly advocates the founding of such an institution.

ASSAULT.—Mr Fassadani was accused by George Taylor before Mr Pemberton yesterday of assault. The difficulty arose through a dispute about the right of way through an alley. The Magistrate continued the case for eight days.

DEATH AT THE HOSPITAL.—Joseph Torrance, a native of Scotland, aged 33, died yesterday. He was at one time a policeman on the local force and was highly respected by his acquaintances.

INDIAN AFFAIRS.—The recently appointed Superintendent for Washington Territory is Gen McKenney, who formerly held the same position.

THE TARIFF.—An answer from the Canadian Government with respect to the proposed tariff modifications is expected on Tuesday.

The Adelphi Saloon building and fixtures were yesterday sold to Mr P Murphy for the sum of \$3500.

WASHINGTON TERRITORY is about to become a State. What airs she will put on like a young girl just out of pantofoles.

The steamer Grappler will tow the bark Ada from Moody's Mills, Burrard Inlet, with a cargo of lumber.

The steamer Otter will take the place of the steamer Enterprise and sail for the River on Wednesday next.

The Odd Fellows are increasing and multiplying. Lodges are about to be instituted at Nanaimo and New Westminster.

The telegraphic dispatch received yesterday numbered 4000 words.

The woman's suffrage movement at San Francisco has died out.

The steamer Isabel sailed at 1 o'clock yesterday afternoon for the Sound.

A. GILMORE, MERCHANT TAILOR, and General Outfitter, has removed his place of business to the store adjoining the Colonial Hotel and opposite the Colonial Office, on Government street, fourth door from Yates, where he proposes to give his old friends and new customers a chance on the principle of quick sales and small profits.

REMEMBER THE FATE OF ADALOM.—Fred Payne, Tonsorial Artist. Shaving 12½ cents Hair Cutting 25 cents, Shampooing 25 cents That Original Cheap Shaving Stand upon the sunny side of Johnson street.

CHRISTMAS, 1870.—The show of fancy goods for the season will commence on Saturday next, the 17th inst, at London House, Government street.

NEW GOODS, JUVENILE'S GLOVES, &c. just received by Express at Victoria House.

BOARD AND LODGING.—Gentlemen can be accommodated with Board or Lodging or both, with the comforts of an English home at a private residence. Address, Mrs Bushell, Kane street, next door to Dr Bellamy's private residence.

By Electric Telegraph.

SPECIAL TO THE DAILY BRITISH COLONIST.

LAST NIGHT'S DISPATCHES.

Europe.

HAVRE, Jan 24—The Prussian cavalry have advanced upon Bajeux.

BERNE, Jan 24—A French detachment is marching on Abbeville with a battery of artillery.

BRUSSELS, Jan 24—The French prisoners at Liege attempted to escape.

VERSAILLES, Jan 26—Longwy has capitulated. 4000 prisoners and 200 guns have been taken.

VERSAILLES, Jan 24—A special to the London Times says Favre is here and is proposing the capitulation of Paris, soldiers and garrison with honor of war. Terms are not deemed admissible. The attack on Fort Denis and the disaster of the 19th mainly led the French to ask for terms. Trochu is sick and Vinoy is in command. The arrangement of the terms of surrender will take some time. The French demands are by far too large.

BRUSSELS, Jan 25—Letters from Paris by balloon state that the Committee of Defence on the night of the 21st, after the sortie, accepted the resignation of Trochu and replaced Admirals Soreau and LaRocquerie. Trochu remains in the civil government. Lefebvre is succeeded by Lorraine.

BERLIN, Jan 24—The Liberals condemn Bismarck, and not Favre, for delaying peace.

LONDON, Jan 24—All railway stock has been removed from Arras.

HAVRE, Jan 24—It is said that all troops here are under orders to reinforce the cavalry.

The Prussians are advancing on the town of Honfleur.

LONDON, Jan 24—The Conference is again adjourned one week. The session, so far, has been confined to the Paris Treaty. The Conference is regarded as a farce.

LIALE, Jan 24—The Prussians have abandoned the attempt to besiege Cambrai.

The French have inundated the country around Douay and Arras.

BORDEAUX, Jan 24—After the battle of Dijon the Prussians retreated towards Maigny.

In the West the Prussians appear to be falling back.

most shortly surrender, and Paris will surrender in a day or two, when 300,000 Prussians will be released to subjugate France. I want a party to negotiate with. I cannot negotiate without a nation. Regular suggested it would be suicidal for any party in France to make peace. Bismarck then angrily closed the interview.

It is believed negotiations for the capitulation of Paris have been opened.

LONDON, Jan 24—The German Parliament is expected to assemble in Berlin on the 9th March.

The bombardment of Longwy is suspended on account of the fog.

HAVRE, Jan 24—The Germans evacuated Bolbec after having made requisition for 40,000 francs, shot four inhabitants and carried the Mayor and three members of the Council.

LONDON, Jan 25—A semi-official declaration from Constantinople says that henceforth Turkey will rely on herself for protection and not on the interests of Europe.

BRUSSELS, Jan 25—Gambetta arrived here yesterday and had a conference with the French and Italian Ministers and left again this morning.

LONDON, Jan 25—The Times in a leader says if Favre refuses unconditional surrender, and will not end the whole war on German terms, Bismarck has in his possession a full acceptance of these terms by the French Emperor and Empress, and will threaten to restore Napoleon.

There is ground for belief that Paris will surrender. There is great scarcity of fuel and provisions.

The population of Alsace is troublesome. A large German force is required in the province to prevent an outbreak.

LONDON, Jan 25—Bismarck is advised of Favre's reported visit to Versailles.

The Echo says there is no official confirmation of the negotiations for the capitulation of Paris.

The rumors in the Stock Exchange about Paris has affected the consols.

The Garibaldians have routed a detachment of Landwehr and destroyed the RR at Pontoux and Burgundy.

New York, Jan 26—Nothing additional to the London Telegraph from Versailles has been received but there is ground for the belief that Paris will surrender to-day.

As already telegraphed Bismarck announced that Bourbaki is caught between the armies of Werder and Manteuffel and must surrender.

A dispatch from Bordeaux admits that the Germans are on the Lyons R R south of Bourbaki's supposed position can only be construed to confirm a statement of Bismarck.

At the same interview Bismarck declared that Paris must capitulate in a few days. He also stated confirmatory of this view of the situation that negotiations for the capitulation had already been opened. The dispatch which reports this proceeds from a correspondent who has persistently denied the Germans claim to successes and may therefore be considered to be entitled to belief.

COPENHAGEN, Jan 23—The chamber discussed the war. The leader of the agricultural party favored the reduction of the army and said the danger of the small states would soon disappear. The war minister believed the condition of Europe was dangerous to small states. However peaceable they might be they were liable to the chances of war and must defend their independence.

LONDON, Jan 25—The conference adjourned on account of the absence of the French representatives. Granville confers with the French charge d'affaires before and after each meeting.

Bismarck has been made chancellor of the Empire.

Eastern States.

New York, Jan 26—A dispatch received yesterday from Kingston, Jamaica, says that John Peter Grant, Governor of that Island concluded arrangements with the Pacific Mail Steamship Company for one of their steamers to call at Kingston once a month. The steamer to make Kingston the first port direct from New York, thence to Aspinwall. On leaving Aspinwall for New York, she will again stop at Kingston for through passengers and cargo. By this arrangement a subsidy of \$25,000 in coin per annum will be paid to the Company.

WASHINGTON, Jan 24—F Blair, Senator elect for Missouri, has taken the oath of office and is appointed to fill the vacancy on the Committee of the Pacific Railroad, Education and Labor.

WASHINGTON, Jan 25—The Reconstruction Committee yesterday instructed the chairman to have the Senate bill to abolish test oath referred to committee for immediate action. Secretary Boutwell was before the House Committee of Ways and Means this morning and made statements against the abolition of income tax. He represented the probable revenue from that source at between thirteen and fourteen million dollars, while the additional costs of collection would be only about half a million.

WASHINGTON, Jan 26—The statement in regard to the re-opening of the Alabama claims attracts great attention. The fact that steps have been taken by Thorpe and Fish was considered secret and hence its publication created alarm among persons having knowledge of it. Sumner says the report that he told Fish the proposed terms would be rejected by the senate is unfounded. He says he has no hostility to any treaty which might be negotiated by the administration. He does not however deny the fact that the Alabama claims are in process of settlement at the present time but whether the treaty is negotiated on the basis proposed cannot be predicted yet, but it is certain the terms now under consideration include amendment of certain positions heretofore taken by the U S, and if reports are correct the most important question of the recognition as belligerent of the Confederation by Great Britain, and another that U S shall make no claims for the vessels destroyed by rebel privateers, other than the Alabama, meaning the Florida, Shenandoah, Georgia and Sumpter.

In regard to the action of the President directing the secretary of war to stop the sale of arms and ammunition in order to conciliate the Germans it is stated that the baron Von Gerolt called on the secretary of war at the time that a proposition was made to dispose of large numbers of arms and asked that no sale be made till the German government could make an offer to buy the entire lot offered. The secretary said in reply that the government would not under any circumstances sell to foreign governments. The right to dispose of arms to its own citizens had not been disputed and sales of arms should go on as before the war.

California.

SAN FRANCISCO, Jan 26—Last night a colored porter, member of one of the African Churches, caught the pastor of the church in a suspicious proximity to his wife. The porter and his wife have separated and a divorce suit with its attending scandal will follow.

This evening Captain Silverthorne of the San Francisco Police Department addressed

his watch, stating that the report of a beastly affair said to have occurred on the Sacramento boat a few nights ago, in which he was said to be implicated, had gained such currency that he was compelled to take action in the matter. He solemnly declared that he was in no way guilty; but said the circumstances of the case were of such a nature that he could not in honor make an explanation, and was therefore compelled to resign. He then bid good bye to the local. When he left he was so affected that he could hardly speak, and nearly every man on the watch was in tears. Few of his friends credit the worst details of the case. The woman mixed up in the scandal is the wife of a clerk in the City Hall, who is aware of the reports but continues to live with her.

Several cases of blackmail or robbery of Chinese merchants by parties connected with the Internal Revenue Department are reported. In one case they got \$500 from a merchant on the pretence that they were about to seize his place on a charge of being engaged in illicit distilling. From another they got \$320 by threatening to make seizures for smuggling opium. The last case is being investigated, and police officer Mo. Langhin has been before the Police Commissioners to-day on a charge of being accessory to the fraud.

MARYVILLE, Jan 24—The Sacramento river rose very rapidly at Chico and Red Bluff on Monday evening, and was so high on Tuesday morning that the stages from Oregon could not cross.

SAN FRANCISCO, Jan 24—In reply to the petition of Patrick Meagher to have Thos Mooney, Esq. of Brussels, late white man's candidate for governor of California, declared insolvent in the U S district court to-day Mooney through his attorney denied that he had committed acts of bankruptcy, that he owes or ever did owe to the petitioner the amount alleged or any amount whatever and should not be declared bankrupt for any cause alleged in the petition.

Daniel Murphy, president of the late city savings loan and discount bank, in response to a petition to have him declared insolvent puts in answer to it that he was rich when he entered the bank. That all his money was given into it. That the directors must have misappropriated funds that he did not know of. Accounts were not kept correctly and there must be a large sum due him from the bank. That the recent mortgages given various parties were bona fide and fully that he is unable to pay in full his liabilities at this time.

The grey messenger horse which trotted aside of 3 minutes, belonging to the estate of the late Dr Titcomb, was sold at auction to-day and brought only \$180.

Horse stock is badly at a discount here on account of the present rates of feed. Stocks—Point 26½. Belcher 102. Nevada 14. Obollar 66½. Norcross 102. Bayer 10 Imperial 12. Eureka 13½. Valley 31 Jacket 39½.

SAN FRANCISCO, Jan 25—Weather warm and clear.

Suit of John Farrot, vs D N Barney and others for \$100,000 damages for injury done to Wells, Fargo's building by the explosion of nitro glycerine in April 1866. Judge Sawyer in the U S district court today ruled out all claims for anything but direct damage to the building and gave judgment for \$1785.

It is understood that Mr Brettell of the Bulletin editorial corps will assume the editorship of the Overland Monthly and a number of talented writers not hitherto contributing will be added immediately to the list of contributors.

Notwithstanding that Dion gives Deary 100 in the match for to-morrow night betting is only slightly in favor of Deary.

The Woman's suffrage convention adjourned without having apparently furthered their interests. Only 42 persons were present.

SAN FRANCISCO, Jan 26—The match between Dion and Deary came off this evening. French carrom table used. Dion has to make 600 to Deary's 500 for \$1000 a side. Very little betting. Large audience. Deary won 1st shot but neither scored in first innings. In the 5th innings Deary made 15½ Dion followed with a run of 42 and Deary with a 7 Dion could. Deary nervous and irritable. It will be after midnight before the game is decided.

The grand jury reported 36 indictments to-day and adjourned.

Flour—City millers advanced to \$7 for extra. Superfine \$5 75. Extra \$6 75 to \$7 Wheat—Firm \$2 30 to \$2 37½. Barley—\$1 30 to \$1 45.

John Johnson, furniture dealer on Fifth street, left home yesterday and was found dead in Hamilton square with deep incisions in both arms from which he had evidently tried to stop the flow of blood but failed. A letter directed to John McComb showed his intention to commit suicide. He leaves a wife with three children.

The fog has not lifted for 24 hours and is almost like a rain.

The brewery No. 637 Broadway it was seized by the revenue officers to-day for alleged fraud on the revenue laws.

Wheat—Very quiet on account of the extreme figure being demanded. Ordinary grades dull \$2 20 to \$2 25. Good to strictly choice \$2 30 to \$2 37½.

Barley—Six hundred shs light feed \$1 37½. Range of market \$1 35 to \$1 45; Oats—Dull \$1 40 to \$1 60; Hay—\$14 to \$17.

Wheat—Advanced 12 cents.

Warrants are being issued for the arrest of various parties engaged in selling the Day's Doings and similar obscene papers from New York. Their cases will be taken before the Grand Jury immediately.

Yerka, Jan 25—A man, giving his name as Kellogg, has been recently operating in bogus insurance among the farmers in this County. He claims to represent the Home Insurance Company of San Francisco. He takes risks at one and three-quarters per cent. His policies are poorly gotten up and are signed by J A Redington President, Chas Storey Sec, and countersigned by himself. He is supposed to have gone to Oregon.

The weather for the past few days has been warm but cloudy. Not much rain has fallen as yet, though greatly needed by both farmers and miners.

SAN FRANCISCO, Jan 25—Arrived—Bark Mitchell, 275 days from Liverpool, consigned to Parrott & Co. Bk Forest Queen from Port Ludlow.

Sailed—Ship Ohio, New Bedford; Bark Whistler, Astoria; Bark Tidal Wave, Tacoma. The ship Lookout from New York, which was feared to be lost, has been heard from, having put into the Falkland Islands for repairs.

SAN FRANCISCO, Jan 26—Arrived—Bark E Kimball, Pt Gamble.

Cuba.

HAVANA, Jan 24—Advices to the 29th have been received from Arquipa. The railroad was inaugurated on the 1st inst. The new projected railroad lines are being contracted for.

Oregon.

EUGENE CITY, Jan 26—Charles Fox, a resident of this place committed suicide yesterday by taking laudanum. At the inquest a verdict was found in accordance with the facts. Deceased was a native of England.

A Hint for Our City Fathers.

The Prairie Farmer says: Dr Adam Clark has made this curious calculation: Suppose that each thistle bears eighty heads, each containing only 300 seeds, the first crop is 24,000; the second 576,000,000; the third 13,824,000,000,000; the fourth 31,736,000,000,000,000, and the fifth 7,962,624,000,000,000,000,000.

This wonderful power of reproduction should teach every man to attack and destroy the thistle whenever found. And here it may be well to introduce the substance of a communication to the Journal of the New York State Agricultural Society. A farmer had a field about thirty-five years ago completely covered with Canada thistles. He cut them, and not one ever revived. This curious fact led him to a long series of experiments to discern if the particular date at which they were cut might not explain the phenomenon. For many years, therefore, he has cut the thistles, marking dates and watching the results. He practiced this cutting every day in the season except Sundays. For four years past he has cut them on August 15th 17th, 18th, 20th and 24th and not one has lived. His reasoning as to their destruction is that at this period the plant is not full in the stalk, that rain and moisture settle in the stalk and they rot to the roots. This is certainly worth a fair trial. If by the simple observance of certain dates the roots of the Canada thistle will die and thus prevent numbers of plants from springing up, the world has gained an invaluable blessing. It is an experiment that will cost nothing and in any event the thistle will be cut off.

In Texas a lawyer named Williams got into a quarrel with a State Senator and thereupon shot him. The Judge and Sheriff, with a posse, attempted to arrest him when he shot the Judge and was himself shot by a policeman. A local authority says that public sentiment is against Williams. A very unenviable position, that sentiment must be founded in.

What's the difference between the North Pole and the South Pole? Why all the differences in the world? Replied a lady unwittingly, and that's the answer.

THE PROCLIVITIES FOR SENSATION.—It is astonishing that in this modern age, and supposed to be more refined age, that a custom still exists which originated in the Fifteenth Century from an accidental circumstance of Maids and Bachelors amusing themselves on the 14th of February, by drawing lottery-wives, a name to be taken seriously or in joke, to represent their future wives or husbands. This custom, however, exhibits the same tendency, in the form of Valentines. Some chaste in appearance and sentiment, and others grotesque and calculated to please or offend. T. N. Hibben & Co. are prepared for the coming St. Valentine's Day in the modern and most pleasing form.

A Fragrant Cosmetic.

To preserve the soft clear color of the skin, even to an advanced age, take of the genuine "Murray & Lannan Florida Water" one part of pure water two parts, mix, and bathe the face neck and arms five or six times a day.

As there are worthless counterfeits of this exquisite perfume, buyers should always ask for the Florida Water prepared by the sole proprietors Lannan & Kemp, New York.

Plain Truths.

Bristol's Sarsaparilla and Pills cure scrofula and all sores.
Bristol's Sarsaparilla and Pills cure tumors and ulcers.
Bristol's Sarsaparilla and Pills cure cancerous ulcers.
Bristol's Sarsaparilla and Pills all skin diseases.
Bristol's Sarsaparilla and Pills cure bad blood and humors.

SAW NELLE.

FOR—

Germansen Creek!

THE UNDERSIGNED HAS IN PROCESS of construction at the Albion Foundry, in this city, machinery for a 10 horse power Sawmill to be erected on Germansen Creek, six miles from its mouth. This machinery will be ready for shipment at the earliest possible day, and miners and others may depend on being supplied with

All kinds of LUMBER at Reasonable Rates.

Workmen are now engaged at the Creek in getting out lumber for erecting the building. The mill will be in working order before high water next spring.

Card to the Public.

IN THE ALASKA TIMES OF SUNDAY last I find a paragraph reflecting severely upon my character and coupling me with the flight of Mrs Copman from this place.

I have only to observe that the paragraph does me great injustice.

I purchased the woman's furniture, paid her for it, and had not the slightest interest in causing her to leave the colony—in fact, I advised her to remain. Northwester, standing at an auction room, made a blackmail note, I do not fear, but would rather court the fullest investigation than allow Mrs Copman to be returned and press her supposed claims against me.

Respectfully,

H. SCHULTZ.
